

Noise Reduction Rankings

Each muff's rank was obtained by comparing it to its competitors: a 1 rank is the best, a 4 rank the worst. This resulted in four totals, one for each of the four test products. The two best-ranked units in this category, the Peltor Tactical 7-S and RidgeLine Pro-Ears Pro-Mag, were similar in performance. The Silencio and Gentex products, in contrast, came in at the bottom of our rankings.
