

GUN TESTS RACK SALES PROGRAM

Historically, GUN TESTS has only been available through mail subscriptions — you couldn't find it on the newsstand. In response to a number of requests from gun-related businesses (including FFL licensees, gun stores, shooting schools, and other retailers), we are now offering a program that will enable businesses to buy copies of GUN TESTS in bulk for reselling to their customers. If you are the owner of a gun-related business, and you might be interested in buying a number of copies of GUN TESTS for your customers each month (at a special price), contact:
