Stock Style/LOP.....	Collapsible M4 carbine style, 10.5 to 13.5 in.
Connector .....	Mil-Spec buffer tube
Time to Install.....	44 mins.
Instructions Included.....	Yes
Included Tools .....	Allen hex-head key

**Above: The Mesa Tactical unit provided a secure grip on the 870. Inset: The steel buttplate needs a rubber cover. Less of a problem with armor.**

**Right: The Mesa Tactical receiver adapter screws onto the 870 using a supplied hex key. There are sets of adapter plates available that add sling connections.**

**Right: The receiver adapter has two holes on each side which accept flush cups. The cups allow the provided sling swivel to pop in.**
