WEBSITE OR EMAIL.....	WWW.PARAORD.COM

The five-inch barrel of the Tac Five LDA utilized a swinging link, fully supported chamber and a finely polished ramp. The barrel was tapered to fit tightly inside the bushing.

The factory-installed oversize magazine well was a welcome match-grade addition. Rapid reloads were possible even with standard-length basepads. But, if 18+1 rounds aren't enough, extra-capacity basepads from Dawson Precision can be quickly installed (\$35, from <dawsonprecision.com>).
