

FULTON ARMORY FAR-15 PREDATOR VARMINT
PRECISION 003020 223 REM., \$1995

Gun Tests grade: A

The coolest and costliest gun in our test provided the best overall accuracy, although it just missed the claimed "1/2 inch MOA or better" guarantee. Each gun is built to order, so you can pick and choose the options you prefer to lower the price, but southpaws should request something other than the right-handed pistol grip normally provided.

SPECIFICATIONS

Righties liked the Predator Match Pistol Grip; southpaws reviled it. Above: The FAR-15 makes for an imposing combination when equipped with a Super Sniper scope, sunshade attachment, and a Harris bipod.
