

**SAVAGE MODEL 24V 222 REM./3-INCH 20 GAUGE,
\$400-\$500**

GUN TESTS GRADE: A-

The Savage Model 24V was smaller and lighter than the Baikal and was perfectly acceptable for small-game hunting.

It was a handy little combo.

Website	SavageArms.com
Made In	USA

The simple engraving on the receiver sides made it clear this was a gun for small game.

Extractors pulled empty cases or shells from the chamber. Note the plungers to hold the rimless 222 Rem. cartridge.

The rear sight folded, making the Savage easier to carry without damaging the sights. To shoot, pop the sight up.

To choose which barrel fired first, the shooter toggled the small button on top of the hammer.
